OLD OFFICERS TO SERVE AGAIN

Common Council Members Hold Caucus and Make Their Nominations.

MR. PETERS IS RENOMINATED

Mr. Cannon Proposed for President, but the Incumbent Wins. Nomination Made Unanimous.

The members of the new Common Council held a caucus last night for the nomination of its officers. Mr. Gilbert Pollock acted as presiding officer, and it was but a matter of a few minutes before he had finished with the business in hand, as, with one exception, there was no opposition to the officers incumbent and they were all, without exception, re-

Mr. Ben T. August had no opposition for clerk of the caucus, and Mr. George

Jor cierk of the caucus, and Mr. George C. Ruskell was unanimously elected sergeant-at-arms, as was Mr. Alfred McDowell for committee cierk.

Mr. August read the call for the caucus, and immediately after this was done Mr. Henry Pollard, member from Lee Ward, arose and put in nomination for the presidency Mr. Robert Lee Peters, the incumbent.

Mr. Pollard gave a short eulogy on the career of Mr. Peters while he had been a member of the Council and had occupied the presidential chair, and said he had served them honorably and faithfully and with much credit, both to himself and to the body of which he was chairman.

himself and to the body of which he was chairman.

There was only one name put up in opposition to Mr. Peters, that of Mr. James E. Cannan, who is now in Europe, who was nominated for the presidency by Mr. Waller W. Morton, of Lee Ward. Mr. Peters's nomination was seconded and carried, and then Mr. Morton moved that it be made unanimous, which was done. Mr. Pollard then vacated the chair for Mr. Peters, who was escorted to the rostrum by Mesra. Pollard, White and Richards. As he took his seat a large, handsome bouquet of flowers was brought up, and Mr. August in a few well-chosen and appreciate words, gracefully presented them to the new chairman, who bowed his thands and said:

11 is needless for me to say that words to be turned over to the retailed. man, who bowed his thands and said:

"It is needless for me to say that words
fall to express my feelings. But I wish to
say, gontlemen, that I thank you most
heartly for this honor. I shall try to
fulfill the duties expected of me without
fear or favor, and I shall perform these
dittes to the best of my ability."

Mr. Peters was welcomed warmly, but
immediately put himself to the business
in hand.

in hand.

Mr. E. Harvey Spence was nominated for vice-president, and his nomination was carried unanimously.

After the nomination of the officers the caucus adjourned, and gave way to the last meeting of the old Council, which had much business to attend to before its final adjournment.

FINAL MEETING OF STREET COMMITTEE

Refers Southern Railway Ordinance for Track on Cary Street to Jefferson Ward.

to Jefferson Ward.

Immediately after the adjournment of the caucus last night the Street Committee held its final meeting to consider the matter in regard to the Southern Rallway Company constructing a rallway track along Cary Street, between Seventeenth and Eighteenth Streets, and striking out that clause in the original ordinance which requires the consent of the property owners on both sides of the street, a requirement which is generally made in such cases. It was stated that the City Attorney had rendered it as his opinion that the consent of the property owners on both sides of a street was a necessary requirement shefore, such construction work could, be performed, and Mr. Mills said that the question hung on the decision of this question.

After some little discussion, Mr. Waller Morton moved that the whole matter be referred to the Jefferson Ward. The committee did not seem to care to take up the matter on the eve of the going out. If the old Council, and Mr. Morton's motion was passed. The committee than adjourned.

The Committee on Schools, Police and Diections was scheduled to meet at the same hour, but it failed of a quorum. There had been some suggestion that this committee would recommend its dissolution and that its work be divided among

the other committees or others to be created.

a site and erect a new police station was retabled, which means that this is a job to be turned over to the new Council. job to be turned over to the new Council.
The Finance Committee recommended
that the office of building inspector be
created and presented an ordinance defining the duties of that officer. The proposed ordinance provided that the inspector should receive a salary of \$2,500 per
annum, and his clerk \$900. Amendments
increasing the salary were voted down,
and then the whole business was lost
for the lack of a constitutional vote of for the lack of a constitutional vote of 21 ayes, the vote standing M ayes to 3 noes, the nine noes knocking out a mighty good law for the time being.

The Real Fight.

The real fight of the evening came, when the Finance Committee reported a recommendation which practically dropped the question of establishing a municipal electric light plant.
The committee desired to hear from bid-

ders proposing to furnish all the electric light and power the city needs and await

ders proposing to furnish all the electric light and power the city needs and await replies.

The question was about to come up on the matter of the adoption of the committee's report, when Mr. D. M. White brought the question of an electric plant or no electric plant squarely before the body by offering an amendment to the present ordinance on the subject, an amendment which was designed to take the place of section 7 of the present ordinance. The new section 7, as proposed by Mr. White reads as follows;

The Committee on Electricity are hereby authorized and empowered to employ some person whose business it shall be to prepare the necessary plans and specifications, and to supervise the construction and equipment of the said electrical lengineer, and shall be known as Superintendent of Construction of Electric Light and Power Plant. Such person, upon his entering into a contract to do and perform the services required of him as such superintendent, shall enter into bond in the penalty of \$5,000, with surety as prescribed by the ordinances of the city, for the faithful performance of his contract. He shall be subject to the direction and control of the Committee on Electricity, and may be discharged at their pleasure, and some other qualified person employed in his place. He shall make detailed monthly reports of the construction and equipment, together with such recommendations. progress of the work of the construc-tion and equipment, together with such recommendations as he may deem propersh relation thereto. His compensation to be hereafter fixed by ordinance or resolution, and the

amount so fixed shall be charged to account hereinbetore authorised to be kept in the name of "Bletrid Plant Construction and Equipment, and to be paid on warrant of the Committee on Electricity, signed by the chairman thereof. For such compensation the said superintendent shall assume all costs attending the preparation of plans and specifications, proper supervision during construction, and testing the plant arter construction.

The Morton Amendment. Mr. Morton offered the following as a amendment to be added as sec-

Mr. Morion offered the Mr. Mr. Morion offered the Mr. an amendment to be added as section 8:

"And after said electric plant shall have been constructed and complete, the City Council shall advertise for and receive bids for the lease of said electric plant, and shall be authorized and empowered to lease said electric plant on terms advantageous to the city of Richmond and satisfactory to the City Council of Richmond; but this ordinance shall not be construed to bind the City Council of lease said electric plant, but the City Council shall advertise for and receive bids for said lease, and then determine the question of lease or operation thereof."

Work of a Trust.

Work of a Trust.

The Morton amondment was very promptly voted down by a majority vote, but a lively discussion came up on the up on the ordinance as amended by Mr. White.

general subject. The question then came up on the ordinance as amended by Mr. White the ordinance as amended by Mr. White the ordinance as amended by Mr. White the opposition to the establishment of a trust. He charged that a house-to-house canvass had been made to the homes of members own from the meeting and break a quorum in order to carry this matter over to the new Council. He characterized such conduct as being "dirly" and unworthy of a Councilman. Nobody replied to the presidents of the characterized such conduct as being "dirly" and unworthy of a Councilman. Nobody replied to the presidents charges, but when he took his seat there were ories for the quanton. However other speakers were allowed a say, among them Messra. Garber, Pollock and Mills, who favored the ordinance as amended was defeated by the following voto:

Ayes—Atkinson, Davis, Don Leavy, Garbor, Gates, Hobson, Huber, Lynch, Masurler, Mills, Morton, Pollock, Richardson, Umlaut, D. M. White, Witshie, Nays—Batkins, Curtis, Diokerson, Ellett, Fergusson, Green, McCaw, Miner, Pollard, Well, H. L. White—11.

Mr. Mills changed his vote from aye to making the vote as finally recorded 17 to 12.

Mr. Mills promptly moved 9 reconsideration.

eration and the mouse was voted down.

The Council then, on motion of Mr. Huber, adjourned to reassemble Thursday night at 8 o'clock.

It is expected that at the Thursday night meeting the body will finish up the business it would have completed last night had not the electric plant question taken up the whole time.

TELLS ABOUT WORK DONE BY HIS FIRM

Mr. Cone, of Hunt & Co., Writes Chairman of the Committee a Letter on the Subject.

The matter of selecting engineers to prepare the plans for the rehabilitation by the Council at last night's meeting. The Council, before completing the con-Finance Committee, adjourned over to Thursday night, when there will be an-Thursday night, when there will be another long and busy session. It is expected that there will be a big fight over the adoption of the recommendation of the Finance and Light Committees that Messis. Hunt & Company be given the contract to prepare the Gas Works plans. An effort will be made to have the well-known firm of Humphrey & Glasgow, of which Mr. Arthur Glasgow, formerly of Richmend, is a member, chosen for this important work.

Mr. John J. Cone, as member of the firm of Hunt & Company, is in the city in connection with the matter. He yesterday addressed a letter to Chalman Wood, telling of the members of the firm and the work they have done. The let-

and the work they have done. The let-

Wood, telling of the members of the firm and the work they have done. The letter follows:

Richmond, Va., Aug. 6, 1906.

Hon. James B. Wood, Chalrman Light and Finance Committee, Richmond, Va.; Dear Sir—In view of the award of your committee recently to the firm of which the undersigned is a member, viz., Robert W. Hunt & Co., we deem it only proper that you should know the personnel and standing of our firm.

About twenty years ago we organized as a firm of civil and mechanical engineers. Subsequently we added the departments of minits, hydraulic and electrical engineering, and about five yoars since we entered the field of gas engineering because we reognized in that field a demand for engineering skill that could meet the needs of the best modern gas plant construction and still maintain a free and independent course without regard to any of the existing syndicates or combinations, each pursuing a more reless narrow plan of design and development. We saw an opportunity to provide cities with the best development of each of the current schools of conprovide cities with the best development of each of the current schools of construction, thus combining in one plant the essential merits of all schools. It is in this matter that we are prepared to protect you in your proposed gas improvements.

FIVE ENGINEERS.

Our firm is composed of three civil and two mechanical angineers, each enrolled in the leading engineering societies of this country. provide cities with the best development

Our firm is composed of three civil and two mechanical engineering societies of this country.

Captain Robert W. Hunt, the head of our concern, is the past president of the American Society of Civil Engineers, the past president of the American Society of the American Society of Mechanical Engineers and the past president of the American Institute of Mining Engineers. During the current year the latter society has again honored him for the second time with its national presidency, and he is now presiding in London over the annual doliberations of the institute, which this year is being held abroad in connection with the annual convention of the British Iron and Steel Institute.

In fortifying ourselves for gas engineering work, we selected as our consulting engineer James C. Mellhenney, a man in middle life, scientifically educated, and with a ripe experience of twenty-six years of continuous practical application in the construction of gas-groducing plants and in the management thereof. Few men bring such rare qualifications to their profession. He comes of a family which for three generations has been pursuing the study and manufacture of illuminating gas. The mame "Mellhenney" has been intimately and continuously associated with gas production since that useful art was first introduced in this country. The entire gas manufacturing profession of this country recognize in James C. Mellhenney one of its ablest and most advanced exponents, and his work at Washington, Philadelphia, Columbus, Ga., and several lesser plants in Virginia and Ohio all bear eloquent testimony to his ability as a designer, his skill as a constructor and his economic success as a manager and consulting engineer.

HIS WORK HERE.

In the new holder just erected for your city we have another splendid proof of his capacity. This device is really the first of its kind that has been scientifically designed and constructed in the United States or elsewhere.

And if we are finally awarded the work of rehabilitating your present producing plant,

production consistent with economy and enduring efficiency.

In support of all that we urged you will find testimonials addressed to you by the leading sas engineers of all parts of the country, and these recommendations have been submitted to you solely on the ground of the merit, experience and ability which the several authorities know Mr. Mollinemy to be possessed of.

We have also served all of the largest railroad companies in the United States, Canada and Mexico, and it is our pleasure to refer you to any one or all of them.

tire to refer you to any one or all ottem.

Finally, it is our intention to deal with the interest of your city in the matter of your new gas improvement as we have dealt with your new holder and its adjuncts, in a clean, upright, skifful and conscientious manner, thus assuring you of the best developments in modern gas production, and with the highest efficiency at the least possible outlay of money and time.

Respectfully submitted,

ROBERT W. HUNT & CO.,

The Spirit of The West in Advertising

The West is the center of American commercial aggress. iveness - the center of advertising activity. And the advertising center of the West is the Lord & Thomas Advertising Agency—the largest Advertising Agency in America.

THE same spirit of western aggressiveness backed by facts—the Initiative—the Push—the Progress that has made Chicago, in sixty years, a city of two million people, that has made St. Louis one of the main centers of American commerce, that has made scores of other cities in the central West rank high among the world's manufacturing communities world's manufacturing communities-

This aggressiveness—the Western Spirit—has built up in Chicago the world's greatest advertising agency—Lord & Thomas.

We want to tell you about the aggress-lveness of the West in Advertising— In Commercialism.

We want to tell you how we can infuse some of the Western Aggressiveness into your business.

We want to tell you how this spirit has brought to Lord & Thomas the aggressive advertising men of America—until, today, more \$5,000, \$10,000 and \$20,000-a-year brains are enrolled on our staff to prepare advertising campaigns than in any other three advertising organizations in the world combined.

We want to tell you about another result of the Western Idea— The Lord & Thomas Record of Results

—the Only Tangible Basis upon which to build an Advertising Campaign with the most reasonable assurance of

This agency alone has perpetuated their years of advertising experience by compiling and maintaining the Lord & Thomas Record of Results at a cost of over \$100,000.00.

The Lord & Thomas Record of Results is a tabulation of actual results—inquiries and sales known positively to have been produced by scores of classifications of selling plans and copy, advertising hundreds of different commodities in all good newspapers and other good media.

We are ready to focus the Spirit of The West-the Brains-the Record of Results and the Organization at our command upon Your Business.

One of our representatives is in your city looking after the interests of some of our present clients every few days. That is why we are advertising in this newspaper—to you—NOW.

A letter, signifying that you will grant us an interview in your office, will not obligate you in any way.

We are issuing a series of small books (cloth bound) covering advertising in all its phases, which we send free to interested advertisers.
